Stock Market

Volume of Dealings Declined Intermittently to Point Nearer to Stagnation.

the day's news today proved an incentive to operations in stock, and the volume of dealings declined successively to a point nearer stagnation. Neither was it clear that any positive discouragement to speculation was offered by the day's news. The trading public was, however, indifferent and almost idio. Some of the usually ent and almost idle. Some of the usually active stocks did not move at all, while others did not open until late in the day. On the other hand, there were a number of specialites quoted which may remain dormant for days at a time. This is a feature of the present market. There is no general condition to explain their movements, which must be traced to an individual cause in each case. The advancing tendency of Union Pacific provest a sustaining influence on the whole of the general list against the controlling influence of the rather marked depression in United States Steel. The selling of the latter was active and had influence owing to the common assumption that selling from that source is likely to come from sources well informed on the steel trade. However, nothing was disclosed of any specific developments in the trade to prompt the selling. Conflicting reports of the terms of the proposed Clartion steel purchase caused an impression that the transaction is still open. Some discussion was heard of the small buying by rall-roads of steel producis. Weather conditions were more favorable, both for the opening of belated spring business and for the drops, and the weakness in the wheat market gave emphasis to this condition. Neither one har all of these developments caused any appreciable movement in the market. Neither did the extraordinary case of the money market affect the stock market. Several million dollars were reported leaned on call at 1 per cent, and the demand for time loans was practically stagnant. Some corporations are reported to be still borrowing at rates higher than the market, but no important note issues have been reported during the week. The extent of the week's loan expansion is therefore in doubt, but the forecast of the week's unrency movement shows a further enormous accession of each by the banks, the estimates of the week's movement at this center running as high as 12,000,000, including the express movement with the Interior and sub-treasury overactive stocks did not move at all, while

exports. The stagnation of stocks became almost complete late in the day. Bonds were neglected and about steady. Total sales, per value, \$1.86,000.

\$4.5094.85. Sheep—Receipts, 17.00; steady to strong; lambs, \$6.50; ewes, \$5.50. CHICAGO, April 22.—Revision of expert reports making wheat conditions in the Southwest more bearish was largely instrumental in starting heavy liquidation of wheat today. July delivery closed with a net loss of "soile. Corn is off her let on the control of the the portions of the Southwestern Territory referred to in the report as being past redemption had the wheat for sale today. The sellers had in the meantime ascartained that the fredeemable portion of the Southwestern wheat fields was confined to western Texas and western Oklahoma. A cable despatch from Liverpool stated that millers were buying considerable quantities of Indian wheat for May-June shipment at the equivalent of Sic a bushel. Such a contrast with the prices at which wheat could be laid down from here had much to do with the heavy selling pressure. In addition there was a large increase in Argentine shipments. No heed was pald to crop damage reports from the Ohio valley and Indiana, the general desire being to liquidate long wheat. Many stop loss orders were reached accelerating the decline. The only demand came from shorts, but there was not sufficient buying from that source to cause any great raily. The market continued in a demoralized condition the entire session, the close being weak. After selling off to ske, July closed at Sek-Sido bushels. Alter selling off to ske, July closed at Sek-Sido bushels. Minneapolis. Duluth and Chicago reported world's exports as equal to 1,656,500 bushels. Minneapolis. Duluth and Chicago reported receipts of 161 cars, compared with 163 cars last week and 167 cars a year ago.

The corn market was weak parily in sympathy with wheat and partly owing to liberal selling by the hig helder of both the May and July deliveries. Over a million bushels of May were reported sold by the erstwhile bull leader. There was a little firmness early, but on the break in wheat liquidation of May corn set in The attending decline carried the price of July and September down with it. Thereafter the market was inclined to drag about the only support coming from shorts. July opened unchanged to the higher at 45½ to 45½ c, sold off to 47% c and closed at 45½-6454c. May ranged between 47½ and 49%c, closing with a net loss of Bt P & S S M. 100 61 61 orfolk & West... preferred ntario & West... ennsylvania 25,200 118 ist preferred and preferred lock Island Co. 2,800 23% preferred lock Island Co. 2,800 23% preferred L & S F 2nd pfd 400 47% Louis S W.

Winter Vegetables Are Being Replaced by New Varieties-Turnips Nearly Over.

Yesterday saw quite a change in the egetable market. Green peas and beans were the first of the new summer vegetables to break the monotony of the old winter varieties. Both of these were of Texan origin; peas are at the wholesale price of 12% cents per pound and beans en off the list. While there may still be en off the list. While there may still be a certain quantity on the market, the season is too late for them to be very good, and they are nearly over. Neither the beans nor the peas are of very good quality, as it is rather early, but this will soon be remedied. Spinach is cheaper at 4 cents wholessle. California asparagua has been supplanted temporarily by the home-grown product, which is cheaper at 12½ cents. Egg plant is out of the market for a few days, as most of the dealers sold out what they had. sold out what they had.
Other branches of the market were steady yesterday and there were no changes. WASHINGTON, April 22.—Today's state-ment of the treasury balances shows: Cash balance, \$220,118,736; gold, \$100,550,791.

Oats are down 146%c. Provisions closed practically unchanged.

For a minute or two at the beginning of trading in the wheat pit there was an air of uncertainty. In consequence transactions were rather light and prices were about where they left off yesterday, with July ½ to ¼c lower at 80½ to 85½ c. Suddenly the market collapsed and a decline of 1 cent or more was experienced in all deliveries. Trading became active and a general disposition to sell became manifested. Reasons for the weakness which had thus quickly developed were various.

A correction of a crop expert's report of the Southwestern situation. Traders who bought on the supposition that western Kansas and western Oklahoma were the portions of the Southwestern Territory referred to in the report as being past redemption had the wheat for sale today. The sellers had in the meantime ascartained that the tredeemable norition of the situation of the sump in wheat and corn the market ruled weak, but the declines were not as pronounced as in other grains. The principal support came from shorts. After one into the principal support came from shorts. After one into the report as being past redemption had the wheat for sale today. distant deliveries of oats due to more favorable crop advices. As a result of this selling pressure and onder the influence of the slump in wheat and corn the market ruled weak, but the declines were not as pronounced as in other grains. The principal support came from shorts After opening unchanged to \(\frac{1}{2} \) \(\frac{1}{2}

STORY OF TRADE TOLD BY MERCANTILE MEN

Bradstreet's.

NEW YORK, April 21.—Bradstreet's norrow will say: Insensonably cold weather all over the Unseasonably cold weather all over the country interferes with plant preparations and growth and interrupts activity in many lines, notably building. Distributive trade, both wholesale and retail, has practically 'marked time' during the week. Back of weather and price conditions there looms up the political outlook, which in most cases has induced a tendency toward conservatism. While fall trade has opened measurably well in some sections, there is a tendency to await developments to affect crop and other conditions.

velopments to affect crop and other conditions.

Among the industries, iron and steel note an accentuation of the quiet observable last week. The market for raw wool is rather low at the East, though higher prices than last year are reported for the new wool cilp at the first.

The poor trade in flour was a depressing feature this week, the mills rotusing much business at the lower rates. Some export business was reported done at the declines in wheat and corn.

Wheat (including flour) exports for the week ending April 21st aggregate 1,65,435 bushels, against 1,212,35 last week, 2,83,542 this week last year, 2,50,388 in 1992, and 4,22,129 in 1901. From July 3, 1803, to date they aggregate 120,696,237 bushels, against 183,671,696 last season, 26,601,231 in 199. and 16,642,266 in 1901.

Corn exports for the week ending April 21st aggregate 83,492 bushels, against 53,330 last week, 1,409,505 a year ago, 36,186 in 1992, and 1,544,656 in 1901. From July 1, 1903, they aggregate 18,162,577 bushels, against 53,104,695 last season, 25,095,575 in 1902, and 156,651,251 in 1901.

Bushness failures for the week ending April 21st number 199, against 198 last week, 152 in the tike week in 1990, 181 in tweek in 1990, 181 in 1990.

Co.'s Weekly Review of Trade will say tomorrow.

Inseasonable weather is still the chief
drawback to improvement in business,
complaints being received from every section of the country, and slow collections
are also attributed to this factor. Not only
is current distribution of merchandise
particularly affected, but future commitments are undertaken most conservatively
on acount of the possible injury to croos.
There is much confidence regarding the
future, despite the fact that at many
points supplies of merchandise are burdensome. Structural work is gradually resuming hormal proportions for the season.
May 1st is usually the date fixed for many
labor controversies, but this year there is
little prospect of scrious disturbances. At
the West railroad freight tonough has not
increased but passenger traffic is very
heavy, and carnings of all roads thus far
reported in April are only 4.5 per cont
smaller than last year.

While no further improvement can be
discerned in the iron and steel industry,
it is gratifying to find no distinct evidence
of a setback
Aside from strength and activity in Tex-

It is gratifying to find no distinct evidence of a setback.

Aside from strength and activity in Texas hides, the Western market for domestic skins is dull and barely steady, a little prospect of higher values, although sales of foreign hides are restricted by light importations from Lathe-America.

Slightly lower prices prevail for the leading agricultural staples. Failures this week number 241 in the United States, against 266 last year and 12 in Canada, compared with 15 a year ago.

Bank Clearings.

NEW YORK April 22-The following lable, compiled by Bradstreet, shows the bank clearings at the principal cities for the week ended April 21st, with the percentage and decrease as compared with the corresponding week last year.

You should never wait until your life hangs in the balance before you give the necessary ald to your sick heart. A weak heart is always serious, for it affects every organ of your body through its inability to purify and keep the sys-

tem supplied with pure, rich, life-giving Any indication of heart trouble, such as shortness of breath after exercise, redness of face, hot flushes, oppressed feeling in chest, weak, hungry spells, palpitation, dizziness, sudden starting

should be cured at once. The safest and surest treatment is Dr. Miles Heart Cure, a nerve and muscle builder, a blood tonic. It acts di-rectly on the heart nerves and muscles, giving them strength and vigor, and relieves every symptom of a sick heart. Your life depends upon your heart,

and a weak, diseased heart, like a single thread, can endure but little. "I suffered for years with my heart. At times my life hung by a single thread. A number of physicians and an eminent specialist treated me. Without the knowledge of my doctor I took Dr. Miles' Heart Cure. It lifted the pains from my heart and caused a free circulation of blood. I am now able to attend to my affairs, something I had never hoped to do again."—MR. JOHN KOELGES, 188 Clinton St., Cleveland, Ohio.
